Nimbix Expands Footprint for Cloud HPC Infrastructure

Nimbix Expands Datacenter Capacity in Digital Realty Trust Facility

Dallas, TX — July 12, 2011 — Working to expand datacenter operations for High Performance Computing infrastructures, Nimbix has entered into a multi-year agreement with Digital Realty Trust that will establish a new Nimbix datacenter in a Digital Realty Trust facility in Dallas, TX.

“We're very excited to expand our datacenter operations within Digital Realty Trust's facility." says Rob Sherrard, co-founder of Nimbix and VP of Operations. “Partnering with Digital Realty Trust allows Nimbix to further innovate and build unique solutions for our customers, thus building competitive advantages. Digital Realty Trust is a proven leader in the datacenter market and understands the nuances of building highly scalable and secure facilities for their customers.”

Accelerated Platforms

Unlike other cloud infrastructure providers, Nimbix manages novel accelerated server platforms to speed up data processing for computationally intensive applications. Customer applications include high speed rendering, bioinformatics, and financial analytics as well as others that benefit heavily from the accelerated processing provided by Nimbix. “In addition to our Nimbix Accelerated Compute Cloud™, Nimbix is also expanding its private cloud HPC clusters for customers who prefer dedicated environments for accelerated computing,” says Sherrard. “Our partnership with Digital Realty Trust enables us to expand rapidly as we take on new customers with growing cluster sizes.” Nimbix will begin operating in its new datacenter by late July 2011.

About Nimbix

Nimbix is a provider of cloud-based High Performance Computing infrastructure and applications. Nimbix offers hardware accelerated server platforms as a service through the Nimbix Accelerated Compute Cloud™ Portal and dramatically speeds data processing for Life Sciences, Finance and Graphics applications.

About Digital Realty Trust, Inc.

Digital Realty Trust, Inc. focuses on delivering customer driven data center solutions by providing secure, reliable and cost effective facilities that meet each customer's unique data center needs. Digital Realty Trust's customers include domestic and international companies across multiple industry verticals ranging from information technology and Internet enterprises, to manufacturing and financial services. Digital Realty Trust's 96 properties, excluding two properties held as investments in unconsolidated joint ventures, comprise approximately 16.9 million square feet as of April 28, 2011, including 2.2 million square feet of space held for redevelopment. Digital Realty Trust's portfolio is located in 28 markets throughout Europe, North America and Singapore. Additional information about Digital Realty Trust is included in the Company Overview, which is available on the Investors page of Digital Realty Trust's website at <http://www.digitalrealtytrust.com>.
